

MAILCALL

Email to Export Accounts

April 23, 2004

The new brochure is on a fast track so we expect to have it available by June. Please let us know what quantities you will need so we will know how many to print.

The new Lectrotab control, which we noted as model SETR in the March 26 issue of ***MAILCALL***, is also on a fast track with mid-summer availability planned. We actually have the molded parts in our hands with the working prototype due here the second week of May.

Our R&D vessel is here in Virginia for the summer and testing will begin as soon as the prototype arrives. Since this new control is slightly oval in shape, we think we will just call it the "Oval"

More next week but let us hear from you in the meantime. Use mailcall@lectrotab.com for your reply. Our responses will be very quick!

Regards,

L. Jeremy Crews
President
