

# Bennett Trim Tab Owners... why repair when you can **UPGRADE?**

## Lectrotab key advantages over Bennett Hydraulic Systems...

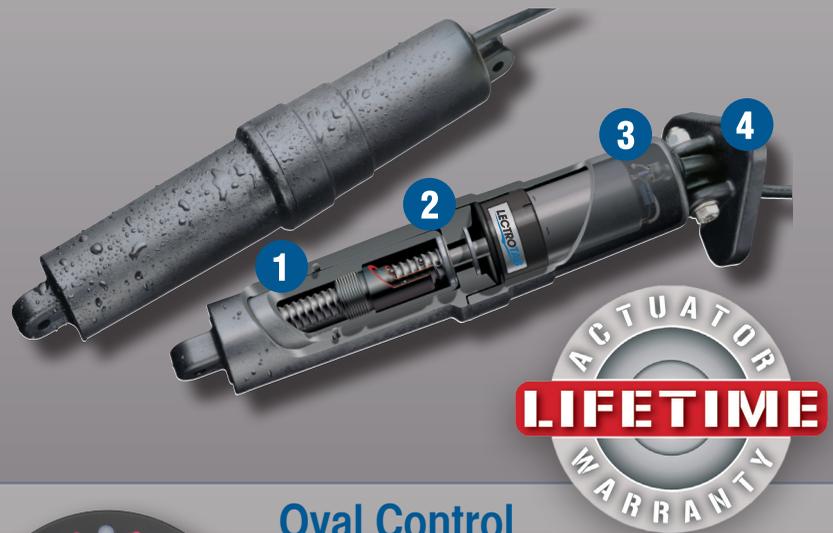

- ✓ *No risk of hydraulic fluid leaks*
- ✓ *Lifetime warranty on actuators*
- ✓ *100% reliable tab position indication*
- ✓ *No maintenance required*

**1** Upper seal, located above any point on the ram which is exposed to fouling, cannot be damaged and is the primary ram sealing element. U.S. Patent No. 5,881,666.

**2** Controlled torque thrust bearing surface for good service life and positive braking against reverse freewheeling. Prevents unwanted tab retraction when under way.

**3** Vent-tube check valve allows air in but not out, thus providing automatic internal pressurization to about 8 PSI when the tab is retracted. U.S. Patent No. 5,881,666.

**4** Upper bracket can be positioned from vertical through horizontal and matches Bennett mounting hole pattern.

## CONTROL OPTIONS

### Rocker Switch

- Performs all standard trim tab control functions
- Water resistant switches
- Easily upgraded to Oval LED control switch

### Oval Control

- Combines a microprocessor based trim tab control with LED tab position indicators
- Completely sealed watertight
- Automatic tab retraction during ignition key switch or auxiliary switch off

## WHY LECTROTAB?

- Lifetime Warranty on Actuators
- Patented Unique Design Features
- World Class Customer Support
- Wireless Control Options

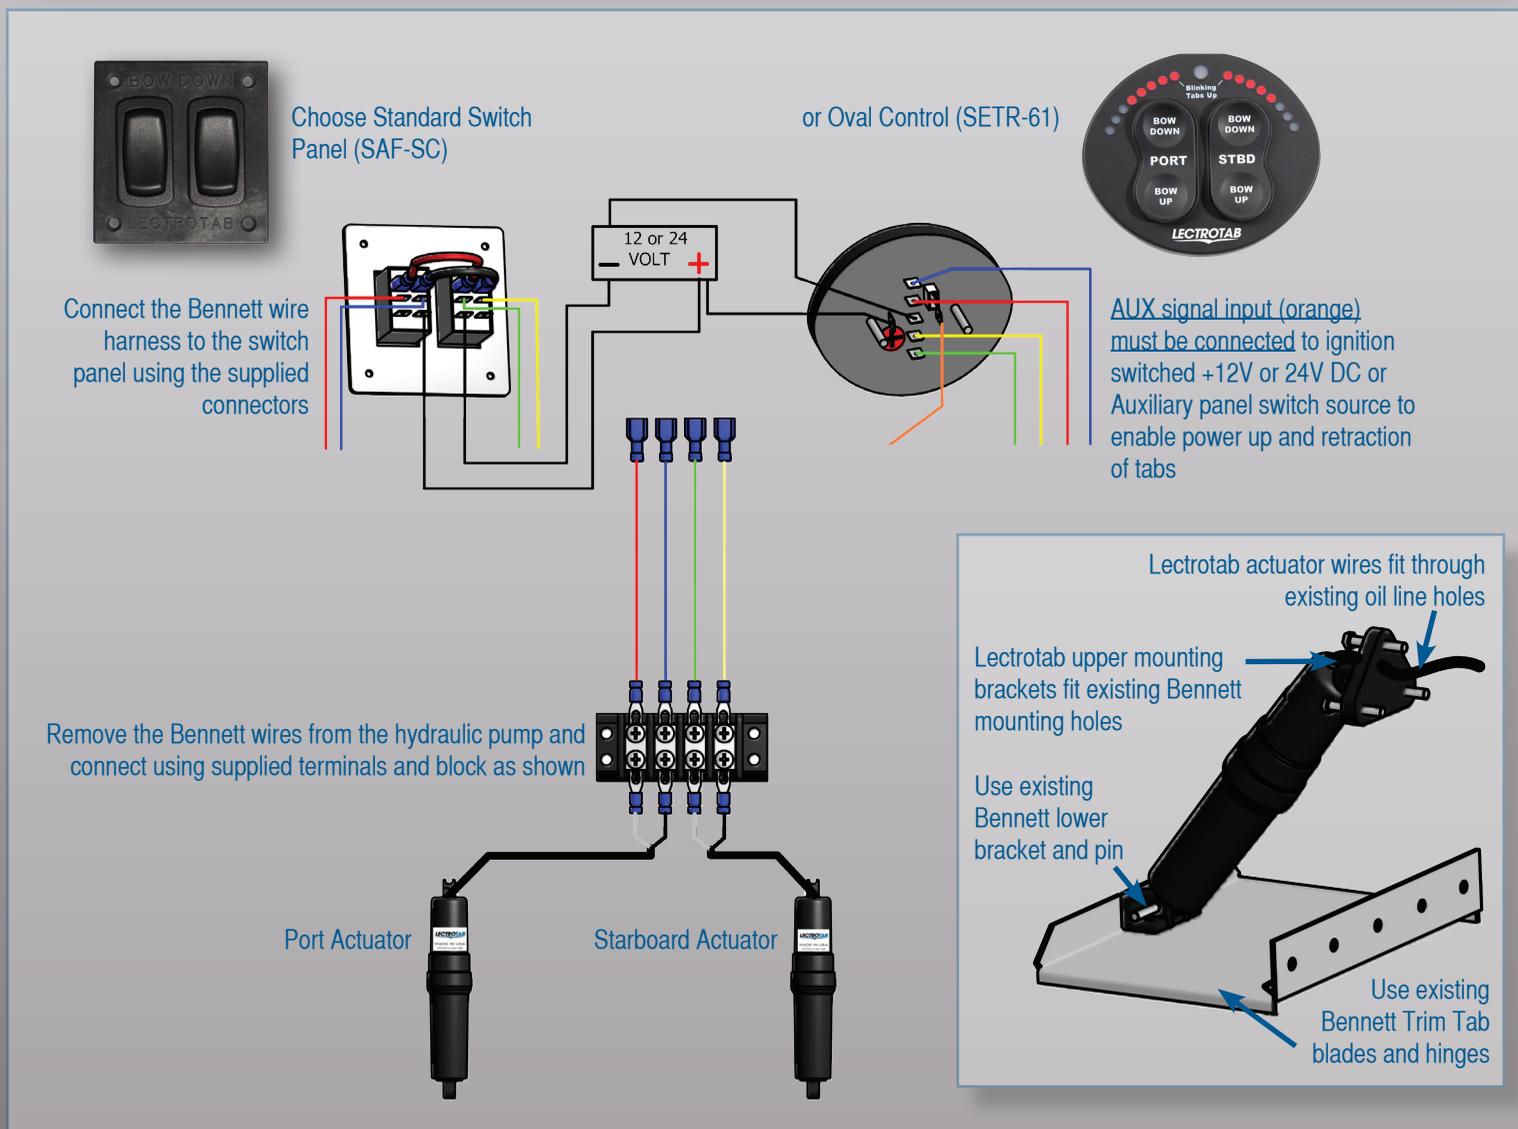

## EASY INSTALLATION

- Uses existing Bennett trim tabs
- Uses same mounting holes as Bennett actuators
- Uses existing Bennett wiring harness

# Bennett to Lectrotab Actuator Upgrade Installation & Wiring Instructions...

## Lectrotab Retro-Fit Kits using existing wiring from Actuator to display (for standard Bennett 4-ring Actuator A1101A)

Part Number	Remote Type	Actuator Type	Cable Length	Hardware Kit
RBKAF	Rocker Switch	Standard (x2)	6' / 1.8m (included)	included
RBKASB	Black Oval LED Control	Standard (x2)	6' / 1.8m (included)	included
RBKAW	Wireless Control*	Standard (x2)	6' / 1.8m (included)	N/A

## Lectrotab Retro-Fit Kits using new wiring from Actuator to display (for standard Bennett 4-ring Actuator A1101A)

Part Number	Remote Type	Actuator Type	Cable Length	Hardware Kit
RBXKAF	Rocker Switch	Standard (x2)	23' / 7m (included)	N/A
RBXKASB	Black Oval LED Control	Standard (x2)	23' / 7m (included)	N/A
