

Lectrotab Warranty Period and Policy for International Customers

Lectrotab is dedicated to honoring its warranty replacement program and has instituted the following process. Follow the steps listed below.

1. To determine if a Lectrotab part is covered under warranty, please see the “Warranty Period” listed below, and review the Lectrotab “Actuator Warranty Policy” at www.lectrotab.com. All Lectrotab parts have a **serial number date code** used to determine if the part is still within the warranty period. The actuator serial number is located on the right side of the upper cover. An example for actuators would be “AK21” (K represents the month of October in alphabetical order (skip letter I) and 21 the year). For “One-Touch” SLC-11 controls: The 4-digit serial number date code is on the back of the control (Ex: 1822, 18 represents the week and 22 is the year 2022). Other controls have a 4-digit serial number indicating month and year of manufacture (Ex: 0419 – April of 2019).

| <u>Lectrotab Part</u> | <u>Warranty Period (from date manufactured)</u> |
|------------------------------|---|
| Actuators | 7 years for actuators which covers “material and workmanship” defects (For warranty, actuator(s) must be connected to Lectrotab brand trim tab plates, control switch and single actuator per tab systems) 3 years from date manufactured for actuators installed with non-Lectrotab parts or dual actuator per tab systems |
| Control Switches | 2 years from date manufactured |
| Tabs (T or TA) | 5 years from date manufactured |

2. Please contact your nearest Lectrotab distributor for warranty replacement evaluation and parts. Lectrotab distributors are located on the Lectrotab website at www.lectrotab.com under “Where to Buy”. You will need:
 - a) a description of the problem or symptom of the failure.
 - b) a photo of the Lectrotab serial number on the failed part
 - c) photos of your control and the tab/actuator(s) on the boat

NOTES:

Part failures due to normal wear and tear, excessive force, exposure to environment, misuse, abuse, neglect, negligence, non-Lectrotab trim tab system installation, incidental or consequential damages or a failure to follow Lectrotab’ s written installation instructions are NOT covered by this warranty policy.

The warranty policy does NOT cover labor cost, hauling fees or any other associated fees pertaining to replacing the failed part or actuators installed in non-Lectrotab trim tab systems or applications.

Actuator(s) must be connected to Lectrotab brand trim tab plates and control switch to qualify for the 7-year warranty. Actuator warranty applies to complete Lectrotab boat trim tab systems only.

Actuators installed or used in applications other than trim tab systems are not covered under warranty.
